AllGoVision offers advanced enterprise grade video analytic solution that seamlessly integrates with existing open platform surveillance systems to provide automatic real-time alarm.

Solutions	Features	Applications
City/Traffic Surveillance Government <ul style="list-style-type: none"> > Traffic surveillance > Highway and State road surveillance > Government and research installations > Airports, railway stations etc. 	<ul style="list-style-type: none"> > Tripwire > Trespass > Tailgating > Wrong way detection > Left out baggage detection > Illegal parking detection > Crowd detection > Vehicle counting > Missing Object Detection > Video Stitching > Smart Auto PTZ control > Object Classification > Video Stabilization > Video Smoke Detection 	<ul style="list-style-type: none"> > Effective traffic control at intersections > Detection of illegal traffic behavior > Unauthorized crowding detection > Suspicious object detection > Suspicious behavior detection in public places > Toll evasion detection at tollbooths > Unauthorized entry detection > Detection of unauthorized parking
Business Intelligence Solution <ul style="list-style-type: none"> > Malls > Shops > Retail Outlets > Food and Beverage 	<ul style="list-style-type: none"> > People counting and reporting > Virtual area entry monitoring > Cup counting solution 	<ul style="list-style-type: none"> > Foot Fall statistics gathering for business optimization > Queue monitoring to improve queuing time for consumers > Pilferage reduction > New Feature to count Beverages and other items served over the counter/shelf at various food joints.
Building Surveillance Solution <ul style="list-style-type: none"> > Government > Manufacturing Commercial <ul style="list-style-type: none"> > Industrial areas > Toll gates > Gated communities 	<ul style="list-style-type: none"> > Tripwire > Trespass > Tailgating > Loitering > Left out baggage detection > Parking control > Crowd detection > Missing Object Detection > Video Stitching > Video Smoke Detection 	<ul style="list-style-type: none"> > Monitoring of entry points > Violation of access control detection > Monitoring of specific areas for abnormal behaviour > Parking management at parking areas > Unidentified potential threat object detection > Overcrowding detection at designated areas > Detection of unauthorized crossing of Railway lines > Monitoring historical or important monuments for vandals
Border Security Solution <ul style="list-style-type: none"> > Government > Manufacturing 	<ul style="list-style-type: none"> > Tripwire > Trespass > Video Stitching > Video Stabilization 	<ul style="list-style-type: none"> > Detect entry of intruders into high security installations, sterile zones, etc. > Detect violation of forbidden space/region

Overview

AllGoVision is a leading and fast growing open platform video analytic solution from AllGo Systems with installation in APAC, EMEA and Americas. AllGoVision provides superior performance in terms of accuracy and robustness. AllGoVision supports higher number of channels/server

Feature Rich: Basic and advanced features like Tripwire, Trespass, Loitering, Left out baggage detection, Object counting, Crowd detection, illegal parking detection and wrong way detection

Differentiators: Features like video stitching, smart auto PTZ control and cup counting provide integrators and users with greater cost saving and utility than possible with other systems.

Capability: AllGoVision focuses on providing following benefits to their customers - robust performance, cost efficiency, ease of use and customization.

Integration

- > Integrated with open platform VMS like Milestone, Mirasys
- > Can be installed with VMS on same machine or separately
- > Send alarms to VMS Viewer application
- > Supports direct Camera feed
- > Simple and Intuitive GUI for user input
- > Compliant with any standard IP cameras supported by VMS
- > Storage of alarm files for export
- > Failover server support
- > Runs as Windows Service

Installation and Support

- > Easy installation
- > Trial version available
- > Installation and fine tuning support to customers
- > Support for Enhancements, Revisions and New Features

Operating System support

- > Windows 7
- > Windows Server 2003, 2008
- > Windows Vista
- > Windows XP

System

- > Server, Workstation, PC
- > Library portable on embedded platforms for embedded applications

Unique Selling Proposition

- > Video Stitching
- > Virtual Camera Analytics
- > Smart Auto PTZ control
- > Customizable video analytics
- > Video Smoke Detection
- > Cup counting

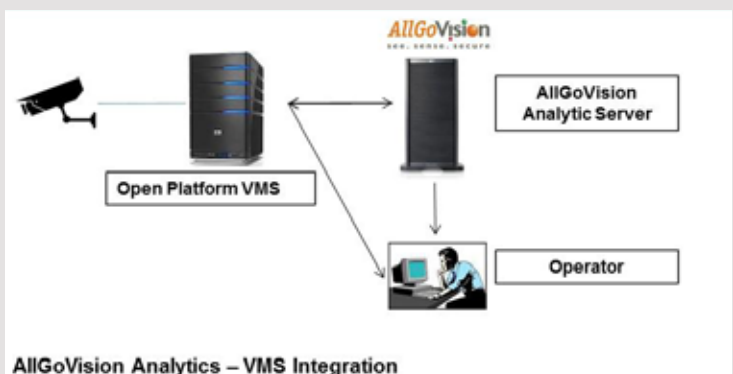

Applicable Business Sectors

- > Government
- > Retail
- > Transportation
- > Industries
- > Traffic Management
- > Education
- > Gaming
- > Financial Institutions
- > Hospitality
- > Healthcare
- > Religious places

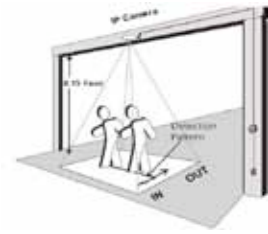

AGV Advanced Video Analytics

- > AGV Virtual Line Analytics
- > AGV Virtual Area Analytics
- > AGV Auto Report E-Mailer

AGV People Counter

- > The application counts the people traversing a certain passage.
- > The application is integrated with advanced Auto Report E-mailer.
- > The application facilitates in generating and exporting the Text & Graphical Reports.

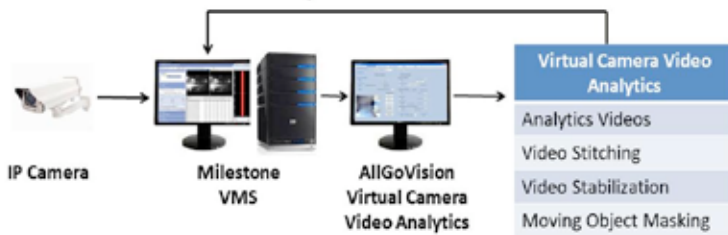

AGV Customizable Video Analytics

- > Specialized player in this field.
- > Customized analytics solution development is available for special project applications.
- > ROI focused customization like pilferage reduction

AGV Virtual Camera

AllGoVision Virtual Camera Video Analytics

AGV Video Stitching

- > Real Time Video Stitching up to 8 cameras
- > Moving object tracking
- > Stitched view monitored in Milestone Smart Client

AGV Stand Alone Analytics

- > Works independently by directly getting the video stream from camera
- > Store the Alert videos and images in separate file
- > Supports open protocol to be easily integrable with other VMS
