AllGoVision Launches AllSafe^{TM} Video Analytics for safety in the post-COVID world

This safety suite will leverage Artificial Intelligence powered Video Analytics to enable businesses seamlessly re-open their facilities post the Covid19 lockdowns.

Dubai, UAE – 31st August 2020

AllGoVision Technologies, an industry leader in Advanced Video Analytics Solutions, today announced the launch of AllSafe^{TM}, a safety-focused video analytics suite designed to enhance the safety of people at office buildings, public areas, industries, and all other public and private facilities amid the COVID-19 pandemic. It features essential video analytics features for the post-COVID world such as No-Mask Detection, Social Distancing, Contactless Attendance Management, Thermal Camera Integration, Contact Tracing and People Counting.

"Built around our proven Video Analytics Platform and leveraging AI/ML technology, AllSafe™ brings a ready-to-deploy solution that can help Businesses, Industries and Public entities worldwide address safety concerns of their employees at work. In the post-COVID world our product can help monitor, enhance, and enforce workplace safety and enable customers establish a responsible re-opening of their offices and facilities." says K Srinivasan, CEO, AllGoVision.

AllGoVision's solutions, which include advanced video analytics, face recognition and ANPR products, caters to the Safety, security and business analytics requirements of customers in Smart Cities, Airports, Smart Buildings and Retail. With the interdiction of AllSafe, public entities such as Cities and Airports can enhance safety with features such as No-Mask Detection and Crowding Detection. Manufacturing facilities and Enterprises, can increase employee safety by using contactless attendance management through Face Recognition and Thermal camera integration, No-Mask Detection and Contact Tracing. AllSafe's People Counting and Occupancy Limiting feature will help Smart Retail.

AllSafe™ as a solution will now be available for all markets including Middle East, India, Korea, APAC, Africa, EU, LATAM & North American markets. For More Information on AllSafe™, visit www.allgovision.com/allsafe
